

PASSIONE DIVINA

2024 EXTRA VIRGIN OLIVE OIL 500ml

\$28

Origin: San Gimignano, Tuscany Italy

The 2024 Passione Divina extra virgin olive oil is produced from hillside orchards in Tuscany, Italy. Due to the very cool summer in Tuscany, there is a higher percentage of green olives than black olives. The higher ratio of green olives produces an extra spicy and peppery oil loaded with antioxidants. (High-quality evoo will last two or more years if stored in a dark, cool place. Please do not leave it on the counter in the light.)

Our Passione Divina, EVOO is all-natural. It is produced from the fruit of estate olive trees, and crushed at cold temperatures with low yield. No chemicals, herbicides, or antiparasitics are used. Additionally, the olives are totally natural as no chemical products are applied. The production is lower but the pureness of this olive oil is ideal. The EVOO was bottled exclusively for us and our customers. This will be some of the freshest oil you have ever tasted. Get ready for a real treat!

Fine Extra Virgin Olive Oil is high in antioxidant polyphenols. Depending on the variety and when it is harvested, its color varies from lime green to creamy gold. You don't really know olive oil until you've tasted fresh extra virgin olive oil. Our Tuscany EVOO has a pungent, fruity, rustic character long famed by the Italians.
